

Making the most of Books on ScienceDirect

Make sure your users get a broad and deep perspective, all from one single, easy-to-use interface.

- ✓ Browse or search content lists, indexes or full text
- ✓ Access as much information as the task requires by choosing to view the full-text PDF or HTML with linked references. Multimedia features such as video and audio available for select book content
- ✓ Build, save and re-run searches as well as combine saved searches
- ✓ Link quickly and easily to and from book content and journal articles, to other publishers' platforms via CrossRef

It saves time, it's easy, it's comprehensive and it boosts research productivity.

More than a quarter of the world's scientific, technical and medical peer-reviewed journal articles are available on ScienceDirect – but that's only part of the story. Add relevant book content and your users benefit from a range of different angles and perspectives that enrich understanding of a field.

Nobel-prize winning research is published, summarized and cited in book series, handbooks, reference works and eBooks. Annual research summaries, techniques, methods, as well as primary research are all frequently published in book format. Online books are an essential complement to journal articles to complete your digital library and ensure your users have the perspectives they need for top-class research.

Make your budgets go further by saving shelf space and the cost of multiple copies.

Multiple users can simultaneously search, view and download book content on ScienceDirect. Concurrent access means that it's no longer necessary to purchase multiple volumes to serve your entire user community. Users can also access ScienceDirect remotely.

Industry leading and COUNTER-compliant usage reports enable you to gain a new insight into user behavior, and make evidence-based decisions about your collection.

MARC 21 records will be available only for Books on ScienceDirect.
